

Holy Fire reiki vibration

- Holy Fire, a new Reiki energy near the belly and resonates on a much higher vibrational level. The flame purifies, and wherever it purifies it release disharmonious energies, replacing those energies with Holy Fire. The vibration of this new energy to Reiki is in all levels of Reiki classes and was inspired by William Lee Rand President of ICRT (International Center Reiki Training). ICRT is the most recognized Reiki in the World.
- Reiki energy is a Japanese technique for stress reduction and relaxation that also promotes healing. It was discovered by Mikao Usui in March 1922. Reiki is administered by “laying on hands” and techniques such as this have been practiced for thousands of years that can be easily learned by anyone. The vibration of Reiki is a very gentle energy.
- Rei-ki-Spiritually guided energy. With Reiki it guides itself with its own wisdom, rather than requiring the direction of the practitioner. Reiki can never cause harm. Reiki never depletes your energy because it’s channeled healing, the practitioner energies are not a part of the session and are never depleted. In fact, the Reiki consciousness considers both the practitioner and client to be in need of healing so both receive benefit. Because of this, giving a session always increases one’s vibration and leaves one surrounded with loving feelings of well-being.
- Reiki is a gift that comes directly from the highest source and as such should be treated with the greatest respect. The ability to channel Reiki energy is transferred to the student by the Reiki Master during an attunement process. (In Holy Fire II classes, the attunement has evolved into Placements and Ignitions which is the same thing as attunements with improved results.). During the Placements and ignitions, the Rei or spiritual consciousness makes adjustments to the student’s chakras and energy pathways and also in deeper parts of one’s consciousness to accommodate the ability to channel Reiki energy: it then links the student to the Reiki source. These changes are unique for each person.

The Reiki Master does not direct the process and is simply a channel for the attunement energy flowing from spiritual consciousness.

- Usui/Holy Fire Reiki I & II.

This is a 2 day full class that allows you to give Reiki healing energy to yourself and to others. The Vibrations gets stronger in level II because of 3 symbols, Power, Emotional and Distant. After six months of practicing healing sessions you will be ready for the next level as a Reiki Master.

- Usui/ Holy Fire ART/ Reiki Master Degree.

The Reiki vibration increases with a three day class. During this class student will receive a placement for ART (Advanced Reiki Training) first day and with 2 day Master class are ignitions. The Reiki Master will teach the student on how to teach Reiki I, II & ART/Holy Fire Master levels of Reiki to the student. The student will learn a Master symbol, Holy Fire II symbol, 3 symbols taught in Reiki II. The title Usui/Holy Fire ART/Reiki Master Practitioner is used until they teach their first class, after they teach a class the title Teacher can be added.

- Holy Fire II Karuna Reiki® Master Degree.

Both Holy Fire and Karuna Reiki were inspired by William Lee Rand President of ICRT. This is a three day class that students receive ignitions of Holy Fire II and Karuna Level I & II of 8 symbols. This class can be taken 6 months after Masters and after this class can teach all levels of Reiki. The healing vibration in this class is so high because it is the strongest Reiki healing energy available.

- **The Vibration from Holy Fire Reiki increases with each Level of Reiki and practice time as a practitioner and teacher in healing sessions and classes. The use of each symbol increases the Reiki Vibration to help with different issues a client is experiencing.**

Information based on my education, experience and 3 manuals.
