

Research Project

Vibrations From Emotions & Instruments on Water, and that Water's Effect on Sprouting Seeds.

Test #1

EMOTIONS & POLARIZED WATER

Comparison of polarized water and plain water on seed sprouting.

Bars represent the number of seeds that sprouted out of a tray of 60 seeds.

Test 1 :

Five groups of containers each containing 60 planted radish seeds .

Group 1 Polarized seeds and polarized water, Played Unconditional Love Cd

Group 2 Polarized seeds, Unconditional Love cd , plain water, (Not Polarized)

Group 3 Plain (Not polarized) seeds, plain water , Anger

Group 4 Plain seeds planted while stressed , polarized water

Group 5 Plain seeds, plain water, Gratitude.

Results for Day 2:

Group 1

Polarized seeds and polarized water, Played unconditional love Cd

31 seeds sprouted. (The package says they should take 4-7 days to sprout)

They sprouted 2 days ahead of time.

Day 7:

44 Healthy Sprouts

Results for Day 2:

Group 2

Polarized seeds, Unconditional Love cd , plain water

27 seeds sprouted

Day 7:

41 Healthy Sprouts

Results for Day 2:

Group 3

Plain (**Not polarized**) seeds, (Planted while my sister was Angry and bitching on phone) Plain water

3 sprouted

Day 7:

17 Sprouts

Results for Day 2:

Group 4

Plain seeds planted while stressed, **polarized water**

22 sprouted

Day 7: 47 Sprouts

47 Healthy Sprouts !!!

Results :

Group 4 is the Winner with Stress and polarized water producing the most sprouts!

47 Healthy Sprouts!

Followed by Group 1: Unconditional love Cd with polarized seeds and polarized water.

44 Healthy Sprouts!

Last Place:

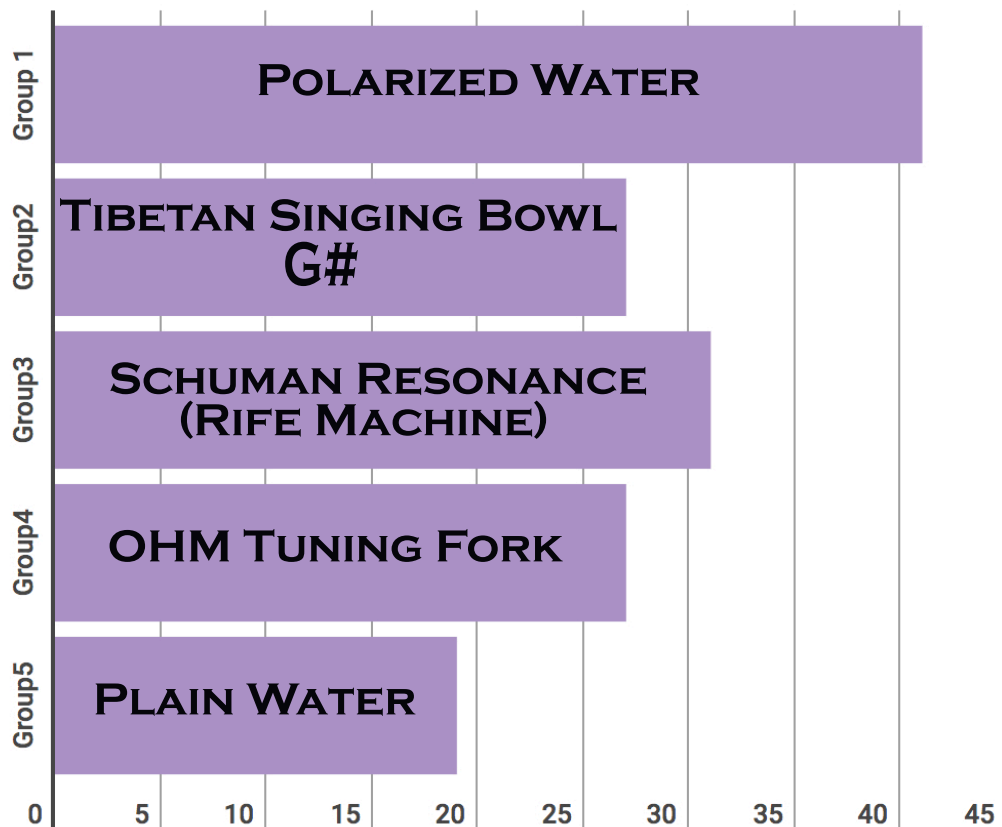

Group 3 with stress, plain water, plain seeds producing only : 17 sprouts !

Now on to test #2...

For round two I wanted to work strictly with vibrating and polarizing water. (I did not do anything to the seeds).

Test #2

Comparison of different vibrational waters on seed sprouting.

Bars represent the number of seeds that sprouted out of a tray of 60 seeds.

Group 1 : Polarized Water

Group 2: Singing Bowl in G# Played for water

Group 3: Schuman Resonance Generated with Rife Machine for water.

Group 4: Ohm Tuning Fork, Stem in Water

Group 5 : Plain Filtered Water

Here's What Happened:

Group 1: Polarized Water

On Day 3

29 seeds sprouted

Day 6

Had a total of 41 **Healthy Sprouts!**

Group 2: Singing Bowl in G# Played for water

Day 4

19 seeds sprouted.

Day 6 had 27 Healthy sprouts!

Group 3: Schuman Resonance Generated with Rife Machine for water.

Day 4

22 seeds sprouted

Day 6

31 Healthy Sprouts

Group 4: Ohm Tuning Fork, Stem in Water

Day 3

16 seeds sprouted

Day 6

27 Healthy Sprouts

Group 5 : Plain Filtered Water

Day 4

7 seeds sprouted

Day 6

19 Healthy Sprouts

It seems like polarizing with a "*Spring LIFE*" Polarizing block has a definite positive effect! I'm going to do more testing but am very impressed so far with the effect that block has had on my water and seeds!
