

Calling the Angels

Angelic Frequencies in Sound Healing

“The angels are co-workers with us human beings. Sometimes they guard and defend us; sometimes they inspire us and announce big news to us-they get us to move. Sometimes they heal us, and sometimes they usher us into different realms, from which we are to take back mysteries to this particular realm.”

-Matthew Fox

Using Angel Tuning Forks

The archangel tuning fork frequencies from Universal Song are based on the Gematria numbers from the Kabbalah sometimes translated as "mysticism" is part of Jewish tradition that deals with the essence of God. (Masters, 2022).

Gematria is a Jewish form of numerology which the letters of the Hebrew alphabet are substituted with corresponding numbers. The first ten letters are given number values that increase consecutively from 1 to 10. The next eight letters are given number values that increase by a factor of ten from 20 to 90.

There are both weighted forks, used with lower frequencies 256HZ down to 22 HZ, and unweighted forks for higher frequencies. The unweighted forks produce a lot of overtones, and they are used around the body to affect the subtle energy fields and the aura level.

Randy Master's also suggests using gemstones, single terminated quartz or quartz Dorjes between the body and the tuning fork to enhance the effectiveness of the treatment. A Dorjes is a thunderbolt cross symbol of divinity in Tibetan Buddhism (Masters, 2022). You can combine the archangel tuning forks with associated gemstones in your treatment.

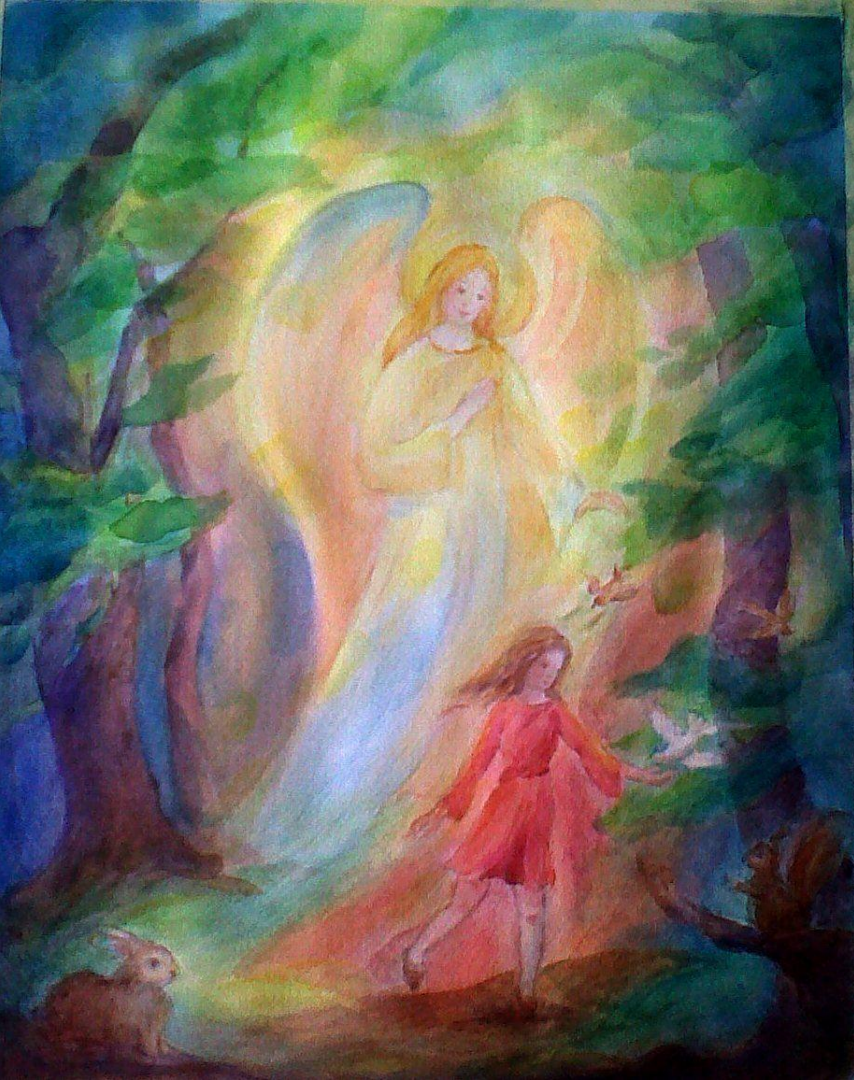

Angelic Frequency Meditation

Conclusion Page

In conclusion, the angelic realm can be accessed in sound healing as protection and for healing. This can be accomplished by directly invoking a specific angel for protection, using tuning forks with frequencies collaborated through numerology, gems, colors, and alchemical bowls that are associated with a specific angel. For example, the Celestite Alchemy bowl by Crystal Tones which “is an angelical alchemy that aids divine guidance, and fosters blissful communication with the higher realms.” The voice can also be utilized as demonstrated with Mei-lan Maurits meditation video.
