BioGeometry

BioGeometry is the science based on the physics of quality, using subtle energy qualities of geometric shapes to balance and harmonize energy fields in living systems and environments. It integrates principles from physics, architecture, and ancient energy wisdom to produce a harmonizing quality called BG3.

WHAT IS BG3

- BG3 is the central energetic quality in BioGeometry, representing a unique combination of three subtle energy components: Horizontal Negative Green, Higher Harmonic of Ultraviolet, and Higher Harmonic of Gold.
- Together, these three harmonics form a balancing and centering energy that supports life force, coherence, and healing across physical, emotional, mental, and spiritual dimensions.
- BG 3 is present in sacred power spots and certain natural formations.

**BIOGEOMETRY USES SHAPES, NUMBERS,
COLORS, AND “SOUND” AS CARRIERS OF
SUBTLE ENERGY TO GENERATE AND AMPLIFY
THE BG3 QUALITY, USING IT TO HARMONIZE
ENERGY FIELDS IN PEOPLE, OBJECTS, AND
SPACES.**

- **BioGeometry Pendulums**

- **BioSignatures**

Healing Space Vision

Resonant Embodiment: A Multisensory Healing Experience Using Sound, BioGeometry, and Cymatics - Creating a healing resonance field

Chakras Balancing: a multisensory healing experience designed to activate and harmonize the energy centers of the body, while maintaining a subtle energy environment that supports the presence of BG3

My Sacred Space

- *Craeted the visualization of the space using AI*
- *We will follow the video as if we were in that space and experience the chakras balancing multisensory experience*

Details of The Experience

THANK YOU
